

Dharendra Singh

B.E. Mechanical Engineering,
National Institute of Technology, Raipur, India

5.9 years of experience in Product Design and Development of Enterprise Telephony and CAD Software Systems in USA, France and India.

Senior Software Engineer, Avaya India

- Led a team for development and performance improvement of Avaya Incorporated's market leading contact centre telephony software, AIC, for very large enterprises.
- Played pivotal role in proving team's ability to take over the technical knowledge and product development ownership from an acquired German company, Tenovis, to Avaya's R&D centre in Pune, India. Successful development of this product, CIE, was essential for Avaya's entry into the mid-market contact center segment.
- Provided consultancy to teams within Avaya for integrating applications and reducing redundancies in the system.

Senior Software Engineer, Geometric Limited

- Led a multicultural and globally distributed team of engineers for development of CAD application softwares of the client viz. SolidWorks Corporation, MA, USA.
- Provided strategic advantage to SolidWorks for acquiring customers of competitors by independently developing various interoperability solutions for integrating SolidWorks products with competing CAD products.
- Provided consultancy for developing interoperability solutions between CAD applications to SolidWorks Corporation in USA and Dassault Systèmes S.A. in France.

Achievements

- Received award for star performance for saving a customer account by implementing customized functionality for a customer in record time at Avaya India.
- Received Kudos award for individual and team performances at Geometric Limited.
- Team leader for mathematics teachers group in Hadapsar, Pune region for the Teach India initiative of The Times of India and United Nations Volunteers.
- Owner of VBusiness (<http://www.webbusinessmen.ning.com>), an online forum for young aspiring entrepreneurs.
- Chief Editor of students' magazine, The Techno Express, in engineering college.
- Director of social and cultural body, The Rotaract Club, in engineering college.
