## **Comprehensive Examination**

On completion of the course work, the participants take the area comprehensive examination (ACE). The area comprehensive examination tests whether the participant has obtained a satisfactory level of knowledge in his/her field of specialization and whether he/she has satisfactorily integrated the various courses taken in the area.

## **Thesis and dissertation**

After passing the comprehensive examination, the participant enters the thesis stage. Each participant will be advised by a Thesis Advisory Committee (comprising 3 or 4 faculty members). The participant first develops a thesis proposal, for which he/she identifies a thesis topic. The Thesis Advisory Committee [TAC] of the participant arranges a public seminar on the thesis proposal for the IIMI academic community. After approval of the thesis proposal the participant works closely with the TAC on his/her thesis. On completion of the thesis research, the participant gives a public seminar, submits the thesis and defends the same.
