Indian Institute of Management Indore

INTEGRATED PROGRAMME IN MANAGEMENT (IPM)
TERM: VI

TITLE OF THE COURSE: OPTIMIZATION
CREDITS: 4

COURSE DESCRIPTION

The course brushes up Linear Programming, and introduces Nonlinear Programming (Optimization) concepts and solution techniques.

COURSE OBJECTIVES

1) To learn basics of Multivariable Calculus necessary for Optimization.
2) To understand and solve unconstrained optimization problems.
3) To understand and solve constrained optimization problems.

*****
