

Faculty Development Programme Workshop of Case Method: Teaching, Writing and Simulation

Date: February 15th – 18th 2023
(Online Mode with 2 Sessions Each Day)

IIMI FDP

Programme overview:

Transformation of the student's outlook is the central objective in management and engineering education adopting a participant-centred approach is a powerful strategy. IIMI course is amazingly designed where in the program starts from the participants' own experience rather than being dictated by the logic of a subject being studied.

Case Study and simulation is a research method involving an up-close, in-depth, and detailed examination of a particular case. Cases are narratives, situations, select data samplings, or statements that present unresolved and provocative issues, situations, or questions (Indiana University Teaching Handbook, 2005). The case method is a participatory, discussion-based way of learning where students gain skills in critical thinking, communication, and group dynamics.

Objective:

The objective of this workshop is to develop a faculty in all the three level of capabilities ranging from Knowledge, skills where in the faculty develops the capabilities for opportunity /problem framing visioning alternatives, analysis critical thinking , cross functional integration and third being capabilities of developing educational attitudes , beliefs and world view. Participative learning through case study and simulations helps developing all the three levels.

We will go through a broad framework of integrating Case Creation with applied research in Management and to generate a Concept cascade to enable teachers channel their research experiences into classrooms in better and faster fashion. Using the case method of teaching shall help the participants in developing skills in the above areas and shall close with a project on case development. Preparing to lead class discussion, leading the class discussion in a manner such that student discovers the theory rather than be informed about it.

HOW TO ENROLL

Applicant willing to participate in the programme shall enrol themselves by filling the online application form available on the website. Last date for submission of application is January 31, 2023. The applications are not complete until receipt of programme fee. Incomplete applications will not be processed.

PROGRAMME FEE PAYMENT

The programme fee Rs. 14,160/- (Rs. 12,000/- plus 18% GST) is to be paid by way of electronic fund transfer.
