

Indian Institute of Management Indore

**INTEGRATED PROGRAMME IN MANAGEMENT (IPM)
TERM: VIII**

TITLE OF THE COURSE: INDIAN ECONOMY (ELECTIVE)

CREDITS: 4

COURSE DESCRIPTION

This course aims to introduce students to development trajectory of Indian economy since independence and enable students to analyse the contemporary issues in Indian economy. This would entail exploration of economic and political underpinning of the development strategies pursued since independence. The course can broadly be divided into two parts: a) development planning under state controls, covering the post-independence period before New Economic Policy 1991, b) economic crisis, genesis of reforms, and the growth upsurge

COURSE OBJECTIVES

1. To understand basic macro-issues related to development of Indian economy
2. To explore the rationale of development strategy pursued by Indian policymakers
