

Indian Institute of Management Indore

INTEGRATED PROGRAMME IN MANAGEMENT (IPM) TERM: VII

TITLE OF THE COURSE: INTERNATIONAL TRADE
CREDITS: 4 (Elective)

COURSE DESCRIPTION

This course is designed as the first course of International Trade. The course will focus on theoretical foundations of international trade with emphasis on detailed understanding of relevant theoretical concepts. Historical narratives, illustrative cases, and empirical information will be used liberally, as required for deeper understanding of conceptual frameworks. This course does not cover the international monetary economics part of the international economics. However, political economy of trade and emerging issues like environmental debate are covered.

COURSE OBJECTIVES

- 1) To prepare a foundation in international trade
- 2) To understand the historical and current trends of trade policy
- 3) To explore and manage international trade data
- 4) To understand, appreciate, research, and articulate the issues, approach, and solutions of international trade independently
