

Indian Capstone Simulations

Database Guide

Learning Centre
Indian Institute of Management Indore

INTRODUCTION

Indian Capstone Simulations (ICS) is a new platform developed by group practitioners and professors with experience from leading corporates. This platform was designed after rigorous pilots with students at leading colleges, including IIMs. ICS will provide real-time simulation. Each simulation is built around real data from NSEBhav copy, CCIL website and latest published company financials to provide real-world context. Data in each project simulation is unique to every time a user downloads a simulation. This helps prevent copying. Further, each simulation is built with timer, attempt, scoring controls that provide complete learning and testing management system.

INTRODUCTION
