Smart Search

Steps to access: Screener → Smart Search

The screenshot shows the INSIGHT website's Smart Search interface. At the top, the 'INSIGHT' logo is followed by the tagline 'An India Focused Research Platform'. Navigation links include RESEARCH, LIBRARY, MARKETS, NEWS, MUTUAL FUND, IPO, INSURANCE, and SCREENER. A search bar at the top right contains the text 'Live Search Quote, Nav, News...' and a 'Search' button. Below the navigation bar, a blue banner displays 'Welcome: iimdr' and a 'CHANGE PASSWORD' link. The main content area is titled 'SMART SEARCH' and features a search form with the following elements: a dropdown menu for 'All Catalogs', a 'Key Word' input field, a 'Modified in:' dropdown set to '1 Week', a 'Sort by:' dropdown set to 'Date', a 'Des:' dropdown, and a 'Search' button. A 'Tips' link is also present. Below the search form, a 'Search Tips' section provides instructions on how to use the search page, including examples for finding phrases, using operators (AND, NEAR, OR), and using wildcards (*, **).

SMART SEARCH

All Catalogs Key Word Modified in: 1 Week Sort by : Date Des: Search Tips

Search Tips

Use this search page to search all catalogs [categories] on this site.

To use this search page, you can look for a single word. Or, use the tips below to refine your search to find more specific results.

Look for a phrase.

Example - type **computer sales** to find the exact phrase *computer sales*. Since the search is not case-sensitive, this is equivalent to *Computer Sales*.

Look for two or more words at once by using the AND operator.

Example - type **Infosys AND export** to find documents that have both the word *Infosys* and the word *export* anywhere.

Look for words that are close to each other by using the NEAR operator instead of the AND operator. When you use NEAR, the closer together the words are, the higher the rank of the page, so the higher it appears in the list of search results.

Example - type **Reliance NEAR dividend** to match documents where the word *Reliance* is within 50 words of the word *dividend*.

Look for synonyms or similar words by using the OR operator. Note that if you don't use the OR operator and search using multiple words, the words are treated as a phrase.

Example - type **computer OR software** to find the word *computer* or the word *software*, but not necessarily both.

Limit your search by using the AND NOT operator to exclude words.

Example - type **computer AND NOT hardware** to find all instances of *computer*, as long as *computer* is not followed by *hardware*.

Use double quotes if you want to use AND, OR, NOT, or NEAR literally.

Example - type **"Hardware and Software"** to find documents with the phrase *hardware and software*. Without the double quotes, this query would use the AND operator instead of the phrase.

Use a single asterisk (*) to look for words that begin with the same letters.

Example - type **key*** to find *key*, *keying*, *keyhole*, *keyboard*, and so on.

Use a double asterisk (**) to look for all forms of a word.

Example - type **fly**** to match *fly*, *flew*, *flown*, and *flying*.

Net worth is the difference between all the assets and liabilities of an individual. In other words, it is what you own minus what you owe. If you owe more than what you own, you have a negative net worth and vice versa. It can also be calculated by adding up shareholder fund and reserve & surplus. This calculator is used to calculate net worth of an individual or a company.
