To Whom It May Concern:

The PGP Executive Committee in its meeting held on 15.7.2009 at 3:00 pm. In Faculty Conference Room No.2 approved the percentage equivalence of CGPA as given below. This conversion is to be used for placement purposes, particularly for the PSUs in the forthcoming placement season. Interpolation would be used to convert CGPA into % by looking at the range in which it falls.

For example if the CGPA is 2.33 the % equivalence would be $60 + \{(2.33-2.3)/(2.4-2.3)\}*(62.14-60.00) = 60.64\%$
