### Profile Summary:

In his entrepreneurial journey, apart from regular business he has conceptualized knowledge based software solutions See-UtiSave & See-ThermiSave, which are being used to identify and implement energy conservation projects. His one of the passion is

to develop and demonstrate 150 energy conservation measures at SEE-Tech's Regional Energy Efficiency Centre is under development. He has received Prime Minister's MSME special recognition award for Outstanding Entrepreneurship.

His present focus is to deliver 20% energy cost savings in commercial Building Sector (Hotels, Data Centre, IT/BPO, Hospitals & Offices). Studies have shown that such energy cost savings can contribute significantly in cash flow in all establishments and in net profits in businesses where energy cost is 10% & above (data centre, hotels). His present focus is on making positive cash flow for clients from first month of contract and to scale this business further.

He has received training in Japan, USA & Germany. He has been part of Indian Team to World Bank's 3 Country Energy Efficiency project to China & recently to Saudi Arabia. He has been an invited speaker for multiple national and international conferences. Milind also shares his insights on energy conservation and how to go about it in the blog <http://seetechsolutions.in/blog/>
