

FPM (Industry) 2019

- Name : Tata Lakshmi Narasimha Murthy
- Area : Strategic Management
- Email : fi19tatam@iimidr.ac.in
- Alternate Email : LNMURTHYTATA@rediffmail.com
- Personal Website : www.lnmurthyata.page.tl
- Google Search : "Tata LN Murthy", "L.N. Murthy Tata"
- Linkedin : <https://in.linkedin.com/in/tata-ln-murthy-59466342>
- Educational Qualifications** : MSc (Master of Science) in Applied Chemistry, MRSC and C.Chem (Chartered Chemist) from Royal Society of Chemistry, London, UK, Certified Corrosion Technologist from NACE International, USA, PG Diploma in Petroleum Engineering from Herriot Watt, UK. MBA (Master of Business Administration), Operations Management from IGNOU, New Delhi.
- Experience** : 19 years of experience in oil and gas Upstream Deep water, Shallow water, and Onshore fields.
- Present Employment** : Assistant General Manager (Chemistry) in GSPC Ltd
- Previous Employment** : As Senior Laboratory Incharge (Production Chemistry Incharge) in Reliance Industries Limited, E & P Division (Oil & Gas), KG D6 deep water field. Worked for Petroleum Development Oman as a (Internal) Corrosion Engineer – North Oman. Worked in Cairn Energy (India) Pty Ltd, Ravva Oil & Gas field, S.Yanam, E.G.Dist, AP, India as a Jr. Production Chemist. Worked in Non-Oil gas companies for four years.
- Publications** : **Published 27 industry papers in 17 Oil & Gas subjects** (Corrosion 11 Papers and 1 each in Quality, Environment, Projects, Maintenance, Operations, Finance, Asset Integrity, Asset Management, Security, Legal & Statutory, Supply Chain, Inspection, Chemistry, Safety, Trainings, and HR).
- Profile Summary** : **19 years of oil and gas (13 years managerial) experience,**

Upstream laboratory, laboratory establishment, process chemistry, internal corrosion monitoring, chemical treatment, as a **Production Chemist** and **Corrosion Technologist** and presently working in HPHT CO₂ and H₂S field.

Worked in Deep water, Shallow water, Onshore & Sour oil and gas fields for the chemistry laboratory & internal corrosion and **prepared entire system of documents and procedures** for Inspection, Corrosion and Laboratory for KG D6 Deep water field and KG DDW HPHT sour gas fields.

Participated in complete **project life cycle** (Procurement of instruments and lab materials, Interior design review, Recruitment of Staff, Commissioning and Operation) of Laboratory for KG D6 Deep water field, KG DDW HPHT sour gas fields since inception. Worked in remote locations, deserts, FPSO and offshore. Handling of surface and subsurface chemical treatment is main area of responsibility. Worked for PWRI study in Ravva and PDO north Oman fields.

Experienced in **Corrosion Monitoring review, performance evaluation & chemical treatment of oil and gas field chemicals**, water injection chemicals & utilities chemicals. Experienced in conducting laboratory trials and filed chemicals of bidders' submitted bids for chemicals treatment and monitoring and optimizing the chemical treatment.

Gained **Knowledge & Qualifications** in **Seven subject areas** of Oil & Gas Operations (Chemistry, Inspection, Corrosion, IT, HSE, Operations & Petroleum).
